FAQ'S

Caution:

Prior to attempting these procedures, ensure the immediate area around the truck is clear. Never put any body parts underneath the truck at anytime. The truck must be free of any load.

Question: How do I start my PST Plus motorized hand pallet truck?

1. Insert the key into the key/shut-off switch located on top of the battery compartment.

2. Rotate the key ¼ turn.

3. Pull up on the key until you hear a click and the switch is in the on position.
