

SPINGO

PERSONNEL LIFTER

THE CONVENIENCE AND VERSATILITY YOUR BUSINESS HAS BEEN LOOKING FOR

The *SpinGo* push-around vertical platform is the ideal alternative to ladders and podiums commonly used in environments where daily activities are performed out of natural reach. This manual push unit provides operators precise travel, while the electric lift function increases productivity and eases routine procedures. Its compact size allows the *SpinGo* to easily fit into the smallest of areas without causing disruption to its surroundings. The *SpinGo's* uses are truly endless.
